

SoSUE

A/W 2022

A NOTE FROM SUE

Every season we ask ourselves, what does a modern woman wear? What brings her style? In the meantime, we have developed a good sense of what women want from us, because we are in a close and daily exchange with our customers and followers every day. It's not just about fashion, our community also shares their worries and hopes with SoSUE. And that has been quite a lot in recent times.

In this dialogue these women want the following three things from SoSUE: An authentic look that combines well with other styles, quality and fair production. We have been fulfilling many of those for years, but in the new fall-winter collection 22/23 we have implemented one or two new ideas. For example, we offer a very unconventional women's suit, an elegant cape or a quilted vest. But we have also further developed the popular SoSUE Basics, there are new cuts, colors and looks.

"We know what women want."

This is not just a saying for us. We can inspire. Women want to be styled, but they also want to show attitude. A SoSUE blouse can be much more than just a blouse: it can be armor against the adversities of everyday life, but it can also mean great freedom with lots of pleasure. Both are possible. This is real life and this is what we are looking forward to.

Have fun with SoSUE

Sue Giers and Vanessa Gieser Management SoSUE

#WeInspireWomen

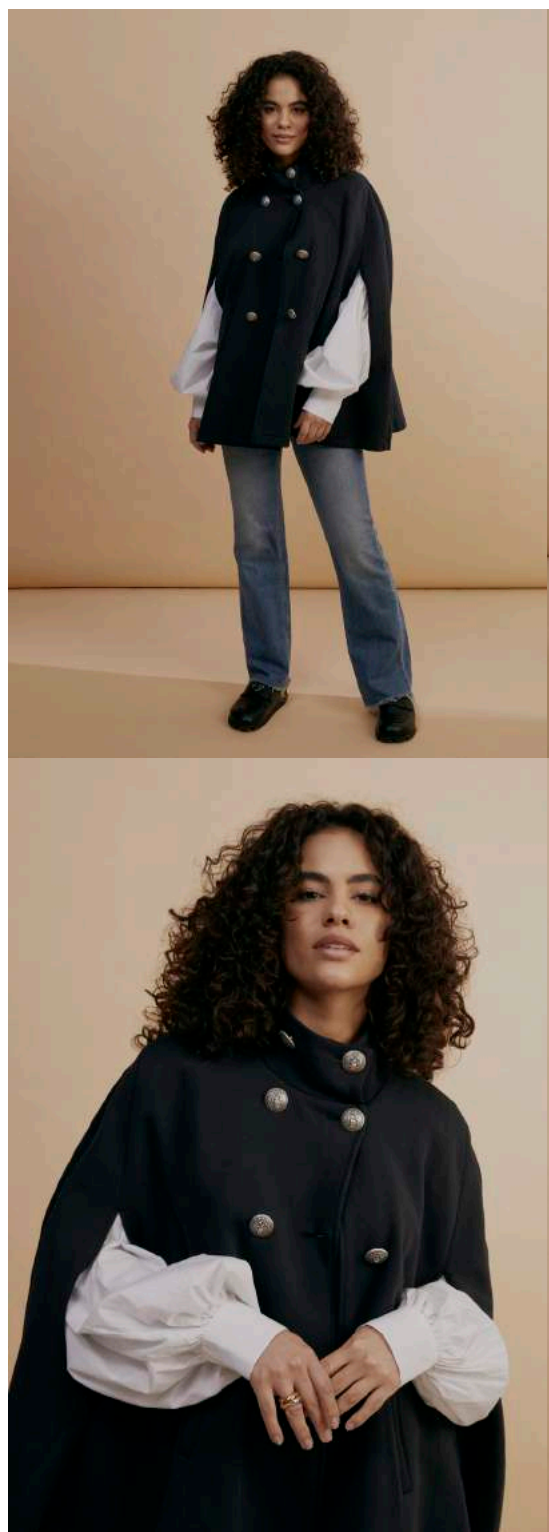

"The recent months have been tough on me and it was hard to concentrate on the collection. I have used these moments of condensing my ideas more intensely than usual to develop new creations. In this process, I remembered again the time when SoSUE was still in the beginning, now I have implemented a few ideas from back then. Always accompanied by the idea to design cool clothes for cool women who know what they want - who want to do a lot with a little, whether they're sitting in a meeting or partying with girlfriends at a bar."

Sue Giers

MAIN COLLECTION

AW 22
